Print Navigator: Current Situation

A clear picture of what print is really costing — device by device. This is the kind of sample we share so you can see the work, not the recipe.

What this sample shows

Outcome pages only — the picture you walk away with. How we build it for a real client stays with us.

1 The monthly number
Toner spend for the whole fleet, black vs color, and what that looks like over a year.

2 Where the money sits
The floor plan is a separate 11×17. Here: the top cost drivers — which devices are quietly carrying most of the bill.

3 Cost per device
Pages per month, cost per page, and toner dollars per month — results, device by device.

4 A clear next step
If this sample is useful, we run Print Navigator on your meters — free, on-site, no obligation.
